These nonprofits are currently operating in Gaza and are recommended by a friend who continues to have close contacts in the region and is very active on behalf of Gaza and Palestinians.

1. The Gaza Soup Kitchen, founded by Hani Almadhoun, https://gazasoupkitchen.org/

2. The American Friends Service Committee (AFSC) currently has a link on its opening page for aid to Gaza. Current Director is a Palestinian. https://afsc.org/ https://secure.afsc.org/a/gazaer?ms=WEB27SB1109ER

3. Middle East Children's Alliance
https://www.mecaforpeace.org/

4. https://www.unrwausa.org/ UNRWA is the United Nations Relief and Works Agency for Palestine Refugees in the Near East. The UNRWA serves as a quasi-governmental institution for Palestine refugees and employ 1000s of Palestinians to provide health and education to the population. They have been recently seriously defunded by the US.

By the way, my friend prefers these to the World Central Kitchen which has been cutting back services while collecting funds, and it is not disclosing operational numbers, according to another nonprofit in the area.
