

1 On this 4th of July
2 It is right to ask why

3 Our ideals have been lost
4 At a terrible cost.

5 Immigrants live in fear,
6 And our trans friends so dear.

7 We spend billions on war
8 But we can't help our poor.

9 Our country's off course
10 With few sign of remorse

11 Let's resolve with all might
12 That we'll do what is right

13 O, we will take a stand; we will create a land
14 A land that is free, with true equality.

OR 7 - And ICE hunts people down
8 - In the streets of our towns.
